**IF YOU HAVE A HOME PHONE
PLEASE TAKE ADVANTAGE OF THIS FREE SERVICE!**

Collection calls are a normal but unsavory aspect of debt resolution...but not anymore!

Upon enrollment with America's Choice Debt Settlement, you will be provided with a unique home phone Module that will re-direct any collection calls you may receive to our office without you having to say a word. We'll provide it and more AT NO COST to you.

The "DAAN" home transmitter was invented by Attorney K.A. Jursinski to end collection calls for folks like you attempting to resolve their debt. Through the DAAN Group, America's Choice Debt Settlement is making the DAAN Module and Attorney Jursinski's monitoring services available to you at NO COST. Here's how it works:

Upon receipt, simply plug the compact (2 ounce) Module into ANY phone jack in your home. Installation is complete! When a collector calls about your account, simply press the star (*) key on whatever phone you may be on, even cordless...and hang up! The DAAN Module will take over and re-direct the caller to America's Choice Debt Settlement to begin negotiations on your account while you go back to the peace of mind of knowing that your debt is being addressed.

Best of all, The DAAN Group attorneys will monitor the calls re-directed to America's Choice Debt Settlement and should you feel any collector has been over zealous in attempting to reach you or has in any way harassed you, DAAN will refer you to a local attorney proficient in this area of the law, for possible legal action against the collector.

You have made a great decision to resolve your debt! You shouldn't have to deal with harassing collectors while doing so. That's why America's Choice Debt Settlement is providing the COMPLIMENTARY DAAN Module and attorney monitoring services to you.

"DAAN- Don't stay home without it!"
